Dear Shareholders:

It is my pleasure to invite you to the 2009 annual meeting of the Omega Flex shareholders. We will hold the meeting on Tuesday, June 2, 2009, at 1:00 p.m., in the Reed Institute, 152 Notre Dame Street, Westfield, Massachusetts. At the annual meeting, we will discuss each item of business described in the notice of annual meeting and in the proxy statement and give a report on our business operations. There will also be time for your questions.

You will have received a notice of internet availability, which directs you to our website – [www.envisionreports.com/OFLX](http://www.envisionreports.com/OFLX)– to access the proxy statement and annual report. You can also request a paper copy of these documents by following the instructions in that notice. This booklet contains the proxy statement and a notice of annual meeting. The proxy statement provides information about the business we will conduct at the annual meeting, in addition to describing our directors and management. Also available on our website is a copy of our annual report on Form 10-K that we filed with the Securities & Exchange Commission, which includes information about our business and our 2008 financial results. We have dispensed with a glossy annual report this year to control our costs in a very challenging environment.

We hope you will be able to attend the annual meeting. If you need special assistance at the meeting, please contact the Company secretary at the address shown on the next page. Whether or not you expect to attend, please vote your shares using any of the following methods:

- vote by telephone or the Internet, as described in the instructions on the notice of internet availability;
- request a proxy card or voting instruction card; sign, date and return it in the prepaid envelope; or
- vote in person at the meeting.

We look forward to seeing you at the annual meeting, and thank you for investing in Omega Flex, Inc.

Sincerely,

**PROXY STATEMENT  
FOR ANNUAL MEETING OF SHAREHOLDERS TO BE HELD**

Tuesday, June 2, 2009

**SOLICITATION AND REVOCATION OF PROXIES**

**The accompanying proxy is solicited by and on behalf of the board of directors of Omega Flex, Inc., hereinafter referred to as "Omega Flex" or the "Company".** The cost of the solicitation of proxies will be borne entirely by the Company. Regular employees of the Company may solicit proxies by personal interview, mail or telephone and may request brokerage houses and other custodians, nominees and fiduciaries to forward soliciting material to the beneficial owners of the stock held of record by such persons. Broadridge Investor Communication Solutions has been retained by the Company to assist in the distribution of proxy materials and the solicitation of proxies by mail, for a estimated fee of \$2,500, plus expenses to be paid by the Company. *Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of this proposed transaction, passed upon the merits or fairness of this transaction, or determined that the proxy statement is truthful or complete. It is illegal for any person to tell you otherwise.*

## PROPOSALS FOR SHAREHOLDER'S VOTE

The following proposals are being submitted to the shareholders for a vote to approve or disapprove these measures. Please read each of the proposals carefully before voting your shares.

### Proposal 1 - Election of Directors

Our board of directors is currently divided into three classes, with members of each class holding office for staggered three-year terms (in all cases, subject to the election and qualification of their successor, or in the event of their death, resignation or removal). Unless authority to vote for the election of any or all of the nominees is withheld by marking the proxy to that effect, the persons named in the proxy will vote to elect David K. Evans, David W. Hunter, and Stewart B. Reed as Class 1 directors for a term expiring at the 2012 annual meeting of shareholders. Proxies cannot be voted for a greater number of persons than the number of nominees named. Each of the nominees is currently a Class 1 director whose term expires at the 2009 annual meeting of shareholders. All of the nominees have indicated their willingness to serve if elected, but if any should be unable or unwilling to stand for election, proxies may be voted for a substitute nominee designated by our board of directors.

The nominees to serve as directors for a three-year term expiring at the 2012 annual meeting of shareholders (Class 1 Directors) are:

David K. Evans	Age 54	Director of Omega Flex since 1996
David W. Hunter	Age 80	Director of Omega Flex since 2005
Stewart B. Reed	Age 61	Director of Omega Flex since 2005

For complete biographical information concerning each of the three Class 1 directors, please refer above to the information under the caption "Directors Background Information"

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE ELECTION OF THE THREE NOMINEES LISTED ABOVE AS DIRECTORS.

### Proposal 2 - Ratification of Audit Committee's Appointment of Auditors.

To ratify the appointment by the audit committee of the board of directors of Vitale, Caturano & Company, Ltd., as independent auditors for the Company for the fiscal year ending December 31, 2009. Although action by the shareholders in this matter is not required, the board believes that it is appropriate to seek shareholder ratification of this appointment in light of the critical role played by independent auditors in maintaining the integrity of our financial controls and reporting. If a majority of the shares present and entitled to vote on the proposed do not ratify the selection of Vitale, Caturano & Company, Ltd., the audit committee will consider the vote and the reasons therefor in future decisions on the selection of independent auditors.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF THE AUDIT COMMITTEE'S APPOINTMENT OF AUDITORS.

No business other than that set forth in the attached notice of annual meeting is expected to be acted upon, but should any other matters requiring a vote of shareholders be properly brought before the annual meeting or any postponement or adjournment thereof, the persons named in the accompanying proxy card will vote thereon according to their best judgment in the interest of the Company.

## **Vote Required**

The Company's by-laws provide that the presence of the holders of a majority of the issued and outstanding stock of the Company entitled to vote at the annual meeting, in person or represented by a proxy, constitutes a quorum for the annual meeting; and that the vote of the shareholders who hold a majority of the voting power present in person or represented by proxy at the annual meeting and entitled to vote will decide any question brought before the annual meeting, unless otherwise provided by statute or the Company's restated articles of incorporation or by-laws.

The nominees for election as directors of the Company at the annual meeting who receive the greatest number of votes cast will be elected as directors for the three (3) positions on the board of directors of the Company to be filled.

Where the quorum requirement set forth above is met, broker non-votes will have no effect on the outcome of the election of directors or the ratification of the appointment of the independent accountants because the matters to be acted upon are routine matters for which brokers have the discretion to vote on behalf of beneficial owners in the absence of instructions from beneficial owners. Abstentions will have no effect on the outcome of the election of directors, but will have the same effect as a negative vote with respect to the ratification of the appointment of the independent accountants.

## **Voting Rights**

The shareholders entitled to vote at the annual meeting will be those whose names appeared on the records of the Company as holders of its common stock at the close of business on April 8, 2009, the record date. As of April 8, 2009, there were issued and outstanding 10,091,822 shares of common stock of the Company, all of which are entitled to vote. The Company is not entitled to vote the shares of common stock held in the treasury nor are such shares considered "issued and outstanding." As of April 8, 2009 there were 61,811 shares of common stock held in the treasury.

Shareholders are entitled to one vote for each share held on all matters to be considered and acted upon at the annual meeting. Cumulative voting is not permitted. There are three (3) directors to be elected at the annual meeting to be held June 2, 2009. Unless otherwise indicated on the proxy cards, the votes represented by such proxies will be voted in favor of the nominees listed thereon and in favor of the Proposals set forth above under the caption "Proposals for Shareholder Vote."

## **Shareholder Proposals**

Proposals that shareholders wish to present for consideration at the annual meeting to be held in 2010 pursuant to SEC Rule 14a-8 must be received at the Company's corporate offices no later than December 30, 2009 in order to be included in the Company's proxy statement and proxy relating to such meeting. Upon receipt of any proposal, the Company will determine whether or not to include such proposal in next year's proxy statement and proxy in accordance with regulations governing the solicitation of proxies.

In order for a shareholder to bring other business before a stockholder meeting, timely notice must be received by the Company within the time limits described above. Such notice must include a description of the proposed business, the reasons therefor and other specified matters. These requirements are separate from the requirements a shareholder must meet to have a proposal included in the Company's proxy statement and proxy.

## **BOARD OF DIRECTORS AND EXECUTIVE OFFICERS**

### **General Information**

The Omega Flex board of directors consists of nine directors. In January 2009, one of our directors, Lawrence J. Cianciolo, passed away unexpectedly, and his presence and guidance will be sorely missed. Under the company's by-laws, the board may fill such vacancy. At its meeting on April 3, 2009, the board elected J. Nicholas Filler, an executive with Argotec, Inc. in Greenfield, Massachusetts, who also served as assistant secretary of Omega Flex, Inc., to fill the unexpired term of that vacancy. The nominating/governance committee reviewed the disclosures submitted by the nine board members and determined that directors David K. Evans, J. Nicholas Filler, David W. Hunter, Bruce C. Klink, John E. Reed, Stewart B. Reed and Edward J. Trainor were "independent" directors under the requirements set forth in the corporate governance guidelines of the board, applicable Securities and Exchange Commission (SEC) rules and the NASDAQ listing standards. The Company's corporate governance guidelines can be found at the Company's website at [www.omegaflex.com](http://www.omegaflex.com). The Company will provide any person, without charge, upon filing a written request to the secretary of the Company at its general offices, with a copy of the Company's corporate governance guidelines. The process by which directors are considered for nomination is more fully described in the report of the nominating/governance committee below.

During the calendar year of 2008 the board of directors held four meetings. All directors were present at all of the meetings, except for one meeting when Mr. JE Reed was absent. At each meeting non-management, independent directors had the opportunity to meet in executive session. The Company's corporate governance guidelines sets forth the policy that all directors are encouraged, but not required to attend the annual meeting of shareholders, and all of the directors attended the annual meeting of shareholders in June 2008.

Our presiding independent director is the vice chairman of the board of directors, currently Mr. Edward J. Trainor.

The board of directors has adopted a code of business ethics, applicable to all employees of the Company, including its principal executive officer, its principal financial officer, its principal accounting officer or controller and persons performing similar functions. This code of business ethics can be found at the Company's website at [www.omegaflex.com](http://www.omegaflex.com). The Company will provide any person, without charge, upon filing a written request to the Secretary of the Company at its general offices, with a copy of the Company's code of business ethics. Amendments to and waivers from the code of business ethics will be disclosed on the Company's website within five (5) business days following the date of amendment or waiver.

The Company is not aware of any material proceeding in which any director or executive officer, or any associate of any director or executive officer, is a party adverse to the Company or has any material interest adverse to the Company. The Company is not aware of having made any charitable contribution to an entity of which any Director is a director, trustee or executive, in excess of the reporting thresholds of \$1,000,000 or 2% of such entity's gross revenues.

Shareholders wishing to communicate with the director presiding over the executive session of the Company's non-management directors may direct such communications to the vice chairman of the

board, at the address set forth above. All such correspondence will be forwarded to the Company's investor relations department, which will review the correspondence. ## **TRANSACTIONS WITH RELATED PERSONS**

The Company was the payee of a promissory note payable by Mestek, Inc., its former parent corporation, as a result of the spin-off of the Company to the Mestek shareholders in July 2005. The note was in the principal amount of \$3,249,615.63, with interest on that note at the rate of approximately five percent. The amount of interest paid by Mestek to the Company under the note in 2008 was approximately \$95,000.00. In October 2007, the note was subordinated to the loan facility extended by Bank of America to Mestek. The entire principal balance note, and all accrued interest was paid by Mestek to the Company on July 31, 2008. However, as a result of claims that the payment by Mestek to Omega Flex did not conform to the notice requirements of the Bank of America subordination agreement, the board has authorized, and Mestek has agreed to, a new loan ("2009 Note") to Mestek in the principal amount of \$3,249,615.00 with an annual rate of interest at 6% and a guarantee of the loan by an affiliate of Mestek. The 2009 Note will be subordinated to the Bank of America loan to Mestek, and will have a maturity date in October 2010. Two of our

directors, Mr. JE Reed and Mr. SB Reed are executive officers of Mestek, and Messers. JE Reed and SB Reed are more than 10% owners of Mestek, Inc.

These responsibilities include assisting the board of directors in its oversight of the accounting and financial controls of the Company, reviewing the process and procedures underlying management's assessment of the effectiveness of the Company's systems and financial controls, and the Company's compliance with legal and regulatory requirements. The audit committee selects the independent auditors, reviews the scope of the audit and the results of the audit, approves permitted non-audit services (such as tax services), and reviews the financial and disclosure controls procedures. The audit committee also oversees management's efforts to establish and maintain a

process for handling complaints or concerns relating to accounting or financial matters, as well as compliance issues generally.

The audit committee acts pursuant to the Company's by-laws and the audit committee charter. The audit committee charter is reviewed annually by the audit committee to determine the charter's adequacy to respond to the issues raised in the course of the audit committee's activities. The audit committee has acted under its charter. The committee held 10 meetings in 2008, at which all members attended in person or by telephone, and consulted with each other and management as necessary to discharge its duties. Please see the report of the audit committee set forth in this proxy statement. The current members of the audit committee are Messrs. Trainor (Chairman), Klink and Filler. ### **Executive Committee**

To the extent permitted by the laws of the Commonwealth of Pennsylvania, the executive committee has and may exercise all the powers and authorities of the board of directors as follows: (a) to take action on behalf of the board of directors during intervals between regularly scheduled meetings of the board of directors if it is impracticable to delay action on a matter until the next regularly scheduled meeting of the board of directors, and (b) to take action on all matters of the Company that have been delegated for action by the board of directors. *This report of the nominating/governance committee shall not be deemed to be "soliciting material" or subject to Regulations 14A or 14C of the Securities and Exchange Commission, or to the liabilities of Section 18 of the Securities and Exchange Act of 1934 (the "Exchange Act") and shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933 ("Securities Act") or under the Exchange Act, notwithstanding any general incorporation by reference of this proxy statement into any other document, and shall not otherwise be deemed filed under such Acts. The Company will provide any person, without*

*charge, upon filing a written request to the secretary of the Company at its general offices, with a copy of the Company's nominating/governance committee charter.*

## REPORT

The nominating/governance committee met in 2008 to review director qualifications, nominate directors for election at the annual shareholder meeting, to review the corporate governance issues for the board, and discuss the adoption of certain policies by the Company for its compliance effort.

The Company has a policy, as set forth in its by-laws, of considering candidates for election to the board of directors who may be nominated by the shareholders. The board of directors recognize and fully appreciate their positions of stewardship of the Company for the benefit of the shareholders, and the board firmly ascribes to the proposition that the shareholders should be free to exercise their franchise to select and elect the persons who direct the Company in which the shareholders have invested. To that end, the by-laws of the Company provide for a process by which shareholders may nominate individuals for election to the board of directors. This process requires that such shareholder nomination be made in writing by a shareholder holding, or by a group of shareholders who in the aggregate hold, five percent (5%) or more of the Company's common stock continuously for at least one year prior to the date of the submittal of such candidate, and delivered to the chairman of the board of directors not later than 120 days prior to the anniversary date of the immediately preceding annual meeting. Such nomination must also include (a) the name and residence of each proposed nominee and of the nominating shareholder, (b) the principal occupation of each proposed nominee, (c) the written consent of each nominee to serve as a director of the Company, if elected, and (d) any information regarding each nominee proposed by a shareholder that would be required to be included in a proxy statement filed with the Securities and Exchange Commission pursuant to the Securities Act, the Exchange Act, and the rules and regulations promulgated thereunder.

Any candidate for election to the board of directors nominated by a shareholder shall possess the minimum qualifications required of any of the directors, as required by the by-laws and by the corporate governance guidelines, to wit: (a) be a natural person, (b) be not less than 21 years of age, and (c) not be a director, officer or employee of a competitor of the Company. The specific skills or expertise of a shareholder nominee should complement the needs of the board at the time of the election. These needs will vary from time to time based on the composition of the board. In reviewing and identifying candidates for the board of directors, the nominating/governance committee is charged with a mandate under the Company's corporate governance guidelines to identify and consider candidates having significant skills or experience in any one or more of the following areas: understanding of the application and use of some or all of the Company's products, understanding of various manufacturing technologies, an understanding of general accounting principles as applied in the preparation and reporting of financial statements of a public company, and expertise and knowledge of management of a large multi-facility organization, international experience, and other pertinent characteristics – all in the context of an assessment of the then current perceived needs of the Company.

Identification of persons to become nominees for the board of directors are obtained through a variety of sources, including the directors, the chairman of the board, the executive officers of the Company, and trade or industry groups in which the Company participates. Once a candidate has been identified, the nominating/governance committee evaluates such candidate based upon his or her length and breadth of business experience, specific skills or knowledge, values, and other qualities which the Company may deem pertinent. The committee's review may include personal interviews and/or reference checks. This process is applied regardless of whether the potential nominee has been identified and proposed by a shareholder or by any other person.

As of the date of this proxy statement neither the chairman of the board nor the nominating/governance committee had received from shareholders owning more than 5% of the Company's common stock a nomination of any individual to the board of directors. There are no nominees included on the Company's proxy card who are not standing for re-election.

## **Audit Committee Report**

*This report of the audit committee shall not be deemed to be "soliciting material" or subject to Regulations 14A or 14C of the Securities and Exchange Commission or to the liabilities of Section 18 of the Securities and Exchange Act of 1934 (the "Exchange Act") and shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933 or under the Exchange Act, notwithstanding any general incorporation by reference of this proxy statement into any other document, and shall not otherwise be deemed filed under such Acts. The audit committee furnished the following report as required under the revised proxy rules adopted by the Securities and Exchange Commission. The Company will provide any person, without charge, upon filing a written request to the secretary of the Company at its general offices, with a copy of the Company's audit committee charter.*

### REPORT

The audit committee met ten times during the 2008 fiscal year and discussed with the Company's management the interim financial statements of the Company for each applicable reporting period prior to the filing or distribution of such financial statements. The audit committee met in March 2009 to review and discuss with the Company's management and the independent auditors, together and separately, the audited financial statements of the Company for the fiscal year ended December 31, 2008. Management has the responsibility for preparation of the Company's financial statements, and the independent auditors have the responsibility for examining those statements and expressing an opinion thereon. The audit committee's primary responsibility with respect to the Company's financial statements is one of review and oversight.

The committee has acted, pursuant to its charter, and has during the year, (a) reviewed with the independent auditors their internal quality control procedures and independence from management, (b) reviewed with management and the independent auditors recent accounting pronouncements and their effect on the financial statements of the Company, (c) reviewed the Company's financial and disclosure control procedures instituted by management, and (d) reviewed with the vice president-finance and chief financial officer the Company's internal system of financial and accounting controls.

The audit committee also discussed with the independent auditors matters required to be discussed by Statement and Auditing Standards No. 61, titled "Communication with Audit Committees," and received from the independent auditors written disclosures regarding the independence of the independent auditors from the Company as required by Independence Standards Board Standard No. 1, titled "Independence Discussions with Audit Committees." The audit committee considered the compatibility of the non-audit services the Company received from its independent auditor and the effect of such engagements on the independence of the independent auditors.

Based on all of the above, the audit committee recommended that the board of directors include the audited consolidated financial statements in the Company's annual report on Form 10-K for the year ended December 31, 2008, filed with the Securities and Exchange Commission.

### REPORT

The compensation committee of the board of directors consists entirely of independent, non-employee directors. The committee has the responsibility for: (a) fixing the elements of a comprehensive compensation program for the chief executive officer and the executive officers of the Company that provide rewards and create incentives for their performance in maintaining and improving the profitability of the Company and enhancing long-term shareholder value; (b) reviewing the levels of compensation to be paid or granted to the chief executive officer and the executive officers of the Company; and (c) recommending to the entire board of directors the levels of such compensation to be paid or awarded.

The compensation committee is fully committed to the proposition that compensation paid to the chief executive officer and the executive officers of the Company should be fashioned in a manner so as to encourage initiatives by those officers that will promote the long-term growth and enhancement of the intrinsic value of the Company. The committee believes that growth of the Company's intrinsic value will ultimately translate into the growth and enhancement of the interests of the shareholders in the Company. This compensation program is further intended to provide incentives to the executive officers that are linked to the financial results of the Company. The committee is also mindful of the need to attract and retain individuals possessing the vision and leadership skills necessary to continue the Company's growth into the future. With these propositions in mind, the compensation committee has based the compensation of the Company's executive officers upon three pillars: base salary, performance-related bonuses based on the actual financial results of the Company measured against its pre-established business plans, and long-term incentives, such as phantom stock units.

*Base salary.* The committee annually reviews the annual base salary of the chief executive officer, the chief operating officer and the chief financial officer, and the recommendations of the chief executive officer for the annual base salary of the Company's other executive officers. The factors upon which the committee determines the base salary of the chief executive officer and the Company's other executive officers include the performance in the preceding year in meeting pre-established business plan goals, the level of responsibility within the Company, comparison of such compensation to that paid to executive officers in other companies of similar size and organization, and the contributions of the chief

executive officer and each of the Company's executive officers that will enhance the long range prospects of the Company, but the effects of which may not be immediately apparent. In 2008, the annual base salary of the chief executive officer was increased by 3.5% from \$316,000 in 2007 to \$327,060 in 2008.

At its December 2008 meeting, the committee froze the compensation of all executive officers at 2008 levels for three to six months in a "wait and see" posture until the general economic conditions, and the company's success in weathering those conditions, became clearer.

*Incentive Bonus Plan.* Effective January 2008, the committee has adopted new performance measurements for the plan. The new performance measurements are a combination of increases in earnings before interest and taxes ("EBIT") and increases in net sales. The bonus pool generated by the executive incentive plan will be calculated as a percentage of the company's pre-bonus EBIT, and would increase or decrease by reference to achievements against pre-established targets for net sales and EBIT for the relevant year. The targets were the three year weighted average of the prior three years performance for net sales and EBIT.

The plan was implemented with the guiding principle that Omega Flex, Inc. is a "growth" company, and that management should strive to grow the company's business, and would be compensated for their efforts achieving that growth. However, as we all know, the year 2008 has been one of the most difficult economic periods for a generation. The scale and scope of the economic downturn that occurred in 2008 was sudden and dramatic, and the committee certainly did not foresee that precipitous drop in economic activity when it implemented the current executive incentive plan that rewarded growth. The application of the new bonus plan in 2008 would have resulted in a reduction of 40% to 45% in the amount of the bonus pool from recent years, even though the net sales and net income were substantially similar in those years, and resulted in steep reduction of the bonus as a percentage of net income from an average of 35% over the last three years to 17% in 2008.

However, in spite of extremely difficult circumstances, management was able to weather the storm in fairly good shape. The company was profitable – in fact 2008 was one of the most profitable years in its history despite sharply lower sales, and the company paid two dividends to shareholders in 2008. The role of management was absolutely key to this effort of cutting costs and improving margins to deliver strong earnings.

As a result of those efforts, and the general economic factors that prevented the company from increasing sales, we believe that the strict application of the new incentive bonus plan would be punitive rather than compensatory. The different results in the new bonus plan as compared with the prior bonus plan for years having similar financial results is unfair to management, who had to work harder to achieve the results delivered for 2008. As a result, the committee voted to supplement the amounts generated by the executive incentive plan with special performance bonuses to the participants in the executive incentive plan, including all of the company's executive officers. The amount of the supplemental payment is approximately \$859,000. The total amount of the executive incentive bonus pool for 2008 is less than any of the three prior years, but with the adjustment it is now comparable to bonus payments made in prior years.

As noted previously, the committee froze executive pay in 2009, and the committee believes in taking a strong stand on compensation issues when warranted. We believe that executives like others should be paid for performance, and not effort. The adjustment we made to the executive incentive compensation for 2008 was appropriate in light of all of the circumstances. Management did a good job for the shareholders in 2008, and they should be rewarded for it. For 2009, we have established targets for the executive incentive plan that are in line with the current economic reality, and will use a percentage of net income to calculate the amount of the executive incentive bonus pool.

*Long-term Compensation.* The Omega Flex, Inc. 2006 Phantom Stock Plan is designed to function as the long term component of our compensation program. Under the phantom stock plan, select members of the management team may receive units of phantom stock. The value of the phantom stock is tied to the value of our common stock. The phantom stock units have a vesting schedule, typically three years. After the phantom stock units have vested, the executive would receive the value of the phantom stock, which would be equal to the then current value of the company's common stock on the maturity date of the phantom stock units. This amount could either be full value (the phantom stock unit is equal to the common stock) or it could be appreciation only (the phantom stock unit is equal to any increase in the value if the common stock). If the executive voluntarily leaves the company or is terminated, then any unvested awards of phantom stock units are forfeited. Awards to employees are at the discretion of the committee and upon recommendation by the chief executive officer. We do not have a formal program on the timing of the phantom stock awards, but we do review decisions on whether to grant phantom stock units on an annual basis in the first quarter, and then during the year depending on circumstances. Generally, the awards will be made either outside any black-out period applicable to insider trading of our common stock, or in conjunction with the calculation and payment of our annual bonus program, which occurs in the first quarter of each year.

After considering all of the factors and making recommendations upon the annual base compensation and bonus formulae and percentage participations for the chief executive officer and each of the other executive officers of the Company, the committee presents this report to the full membership of the board of directors at its December meeting each year. The recommendations of the compensation committee for 2008 was presented, discussed and voted upon, and approved in an executive session of the board of directors of the Company, Messrs. Hoben and Albino abstaining.

In addition, each year the entire board of directors, based upon the recommendation of the Compensation committee, considers the percentage participation of all employees (including the chief executive officer and the other executive officers of the Company) in the Company's profit sharing plan. For the fiscal year ended December 31, 2008, the committee recommended and the board of directors voted a Company contribution of three percent (3%) of annual base salary for all eligible employees up to the OASDI maximum of \$102,000 and a Company contribution of six percent (6%) of annual base salary for all eligible employees for amounts in excess of the OASDI maximum of \$102,000 (as limited in accordance with the Employee Retirement Income Security Act).

On December 15, 2008, Omega Flex, Inc. entered into an employment agreement with each of Kevin R. Hoben, President & CEO of the Company, and Mark F. Albino, Executive Vice President & Chief Operating Officer of the Company. The agreements supersede the prior employment agreements between the company and each of those officers that were in effect since 1996.

The agreements with Mr. Hoben and Mr. Albino contain for the following terms:

Duties and Term. Mr. Hoben will be employed by the company as President and CEO, and Mr. Albino will be employed as Executive Vice President & Chief Operating Officer of the Company. Each of the executives will be employed for a period of two years, and that term will be automatically extended for consecutive one-year periods unless the company issues a six-month notice of termination. The agreement provides for compensation in the form of: (1) annual base salary (currently for Mr. Hoben – \$325,480; for Mr. Albino - \$260,590) subject to annual review and adjustment by the compensation committee of the board of directors; (2) annual incentive bonus awards in accordance with the bonus programs established by the board; (3) twenty days of paid vacation; (4) a car allowance; and (5) other employment benefits provided by the company to all of its employees, such as retirement plans, medical and life insurance programs, and short and long-term disability plans, in accordance with the terms of those employee benefit plans. These amounts are in addition to any payments that may be received in respect of the termination of the agreement. Miscellaneous. The agreement will be interpreted in accordance with Section 409A of the Internal Revenue Code, including deferral of any payments to the executive if he is deemed to be a “specified employee” under §409A.
